Cone Marking
Template
(4 Segments)

Cone Marking
**Template**
(4 Segments)

Instructions:

1. Print this page at the actual size (100%) on 8-1/2" x 11" plain paper. DO NOT use settings that re-size the page, such as "Shrink to Fit" or "Fit to Page." When printed, this box should measure 1" x 1".

1" x 1"

2. Cut out one of the templates along the dotted line.

3. Center and pin the template on the (flat) base of your foam cone. If there is a 'mold line' on the cone (made during the manufacturing process) that runs from top to bottom, align two of the template lines with it.

4. Use the lines on the template to mark guidelines along the edge of the cone.

5. Extend the lines to the top of the cone, as needed, using a flexible measuring tape.
